## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-14, drawn to an isolated nucleic acid comprising a PEG-3 promoter, classified in class 536, subclass 24.1.
  - II. Claims 15-23, drawn to a method for identifying an agent which modulates PEG-3 promoter activity, classified in class 435, subclass 6.
  - III. Claims 24-37, drawn to a method for treating cancer in a subject comprising administering a nucleic acid, classified in class 514, subclass 44.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II and III are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product of claim 1 may be used in materially different processes as evidenced by the two different methods of use claimed.

Inventions II and III are distinct products from each other, having different chemical, biological, structural and functional distinctness from each other, and are not disclosed for use together.

2. A telephone call was made to Dr. Lisa Kole on 30 January 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
